Press release

Bussnang, 27 November 2026

Stadler remains on track

Stadler expects revenue of well over CHF 5 billion and an EBIT margin of more than 5 percent. Chairman of the Board of Directors Peter Spuhler: "Stadler is well on track. All key figures give us reason to be confident. We expect this positive development to continue beyond the 2026 financial year."

Stadler confirms its guidance for the 2026 financial year. Thanks to the strong order intake of well over CHF 7 billion, the order backlog of more than CHF 36 billion comprising high-quality orders, increased production output and the efficiency improvement programme launched in Germany, Stadler expects an EBIT margin of more than 5 percent for 2026.

Hans-Peter Schwald, Vice Chairman of Stadler's Board of Directors, has sold 350,000 Stadler shares to Chairman of the Board of Directors Peter Spuhler. This transaction, made as part of a private, strategic investment, represents 0.35 percent of the share capital comprising 100 million registered shares.

Following the sale, Hans-Peter Schwald continues to hold 500,000 shares. Peter Spuhler remains Stadler's largest shareholder, holding around 43 percent of the share capital.

About Stadler

Stadler has been building trains for over 80 years. The provider of mobility solutions in rail vehicle manufacturing, service and signalling technology is headquartered in Bussnang, in eastern Switzerland. Around 18,000 employees work across 8 production and 6 engineering sites, as well as at over 95 service locations, of whom around 6,000 are based in Switzerland. Stadler is the world's leading manufacturer of vehicles with alternative drive systems (hydrogen and battery) as well as rack-and-pinion railway vehicles. The company is mindful of its social responsibility for sustainable mobility and therefore stands for innovative, sustainable and durable quality products.
